

Encourage discovery with recommended reads

Help patrons find their next title

From quickConnect™, patrons can place recommended titles on hold, print the details on their receipt, or email themselves the information to save for later

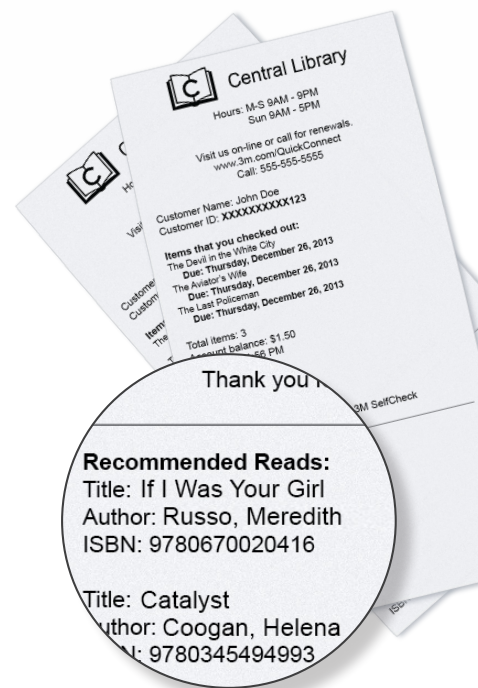

Increase your circulation

By providing new suggested titles for patrons, you keep them coming back for more great reads and circulation continues to rise

Provide the best bookmark

Most patrons use their receipt as a bookmark – what better place to highlight more reading recommendations than the bottom of their receipt?

Trusted recommendations at the selfCheck™, powered by Novelist®

Learn how how to bring reading
recommendations to your selfCheck
