

our solutions...

connect

Provide a connection between the library and its users, wherever they happen to be, expanding its reach and role within the community.

engage

Encourage interaction with the library, in unique ways, that drives participation and enhances its overall importance.

evolve

Empower libraries to reinvent their offering and encourage lifelong learning today and well into the future.

we help your library

connect

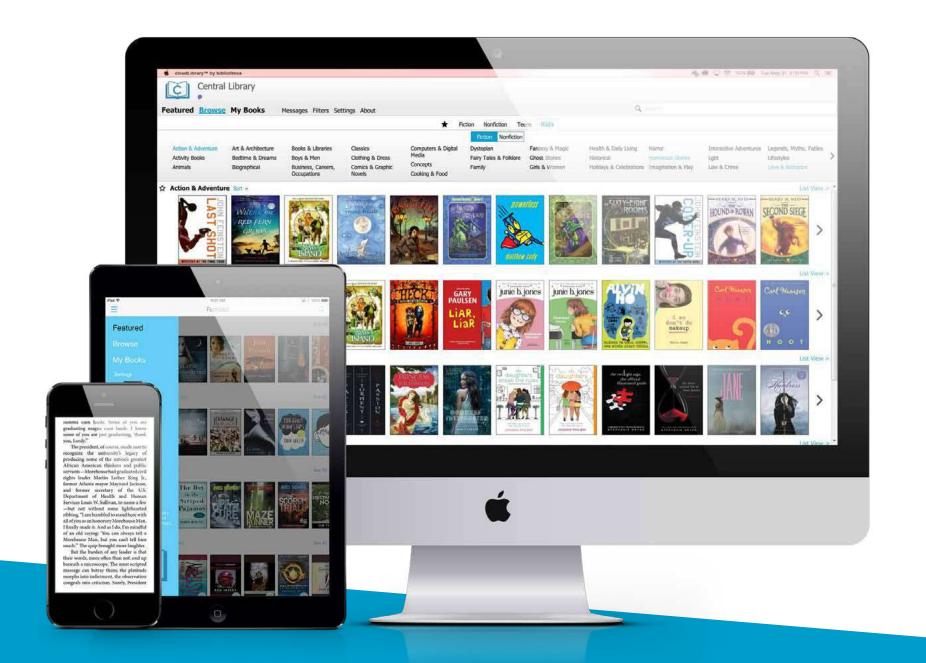

engage

evolve

how much more could you do with cloudLibrary™?

cloudLibrary[™], our eBook and eAudio solution, is designed specifically to meet the evolving needs of public libraries. With tools to increase awareness of library programs, cloudLibrary[™] does much more than circulate digital content.

community outreach tools to easily engage new users

continually the best and most innovative user experience

drive digital users to your library with event integration

relay important library messages and display Twitter feed

read and listen instantly with our web-reader interface

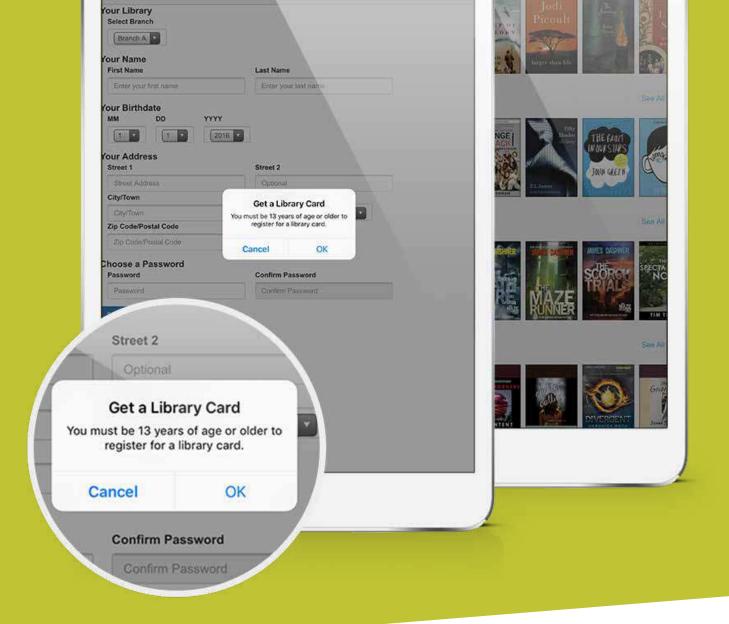

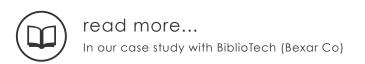

securely and easily recruit new library users

new library users can create an account through in-app patron registration

ILS restrictions and qualifications automatically apply to all new user registrations

all user-sensitive information is held within your ILS, not in cloudLibrary $^{\!\scriptscriptstyle\mathsf{TM}}$

reach new library users with remote digital kiosks

The cloudLibrary™ iOS kiosk license encourages libraries to connect to community beyond their physical library branches. Paired with digital patron registration, this unique cloudLibrary™ feature allows libraries to attract new users and keep current library users engaged. You choose your own iPad kiosk provider. Contact your cloudLibrary™ specialist for recommendations.

civic centers

the ultimate eContent and events hub for your community

event integration drives digital users to your physical library

synchronized updates deliver latest event details

create custom announcements with message center

virtual library card

Users have access to their library user barcode at all times within cloudLibrary $^{\text{TM}}$, making in-library check out easy for teens and other users who prefer not to carry cards.

user can personalize their experience

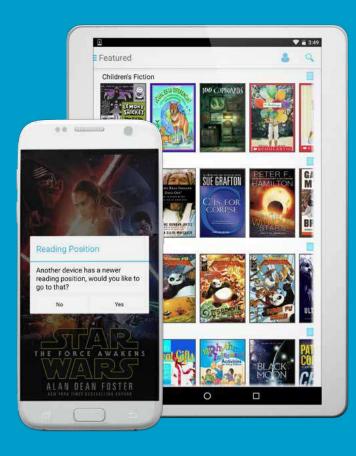

sort by rating, recent additions, or author

save favorite categories

filter eBooks and eAudiobooks

allow users to suggest titles to purchase

categorize by adults, teens and kids

syncs effortlessly, every time

titles

reading position

favorites

bookmarks

keep them coming back for more

one-click borrow and download

intuitive apps for smartphones and computers

sample narrations before borrowing eAudiobooks

ratings and suggestions guide the next read

easily return titles before they expire

a personalized experience

One-click category selection allows users to fully customize which genres they wish to see in their personal browsing shelves. By using advanced filtering, they can sort by publication date, author, title, recent additions, or rating. Saving titles for future borrowing is as easy as tapping the favorite flag.

harness the power of cloudLink

With cloudLink, library consortiums build and manage multiple private eBook and eAudiobook collections with ease and flexibility. Libraries can join or create a consortium by individually purchasing their own cloudLibrary $^{\text{\tiny M}}$ platform and connecting them with cloudLink.

flexible and customizable to fit individual library needs

maintain a private collection and share simultaneously

unique sharing benefits not available on other platforms

seamless access to all consortium and individual library titles in one app

complete control of restricted and shared titles

prioritize your titles for your users and share unused titles easily

library titles to share

share local titles only when available

restricted titles

titles restricted to local users only

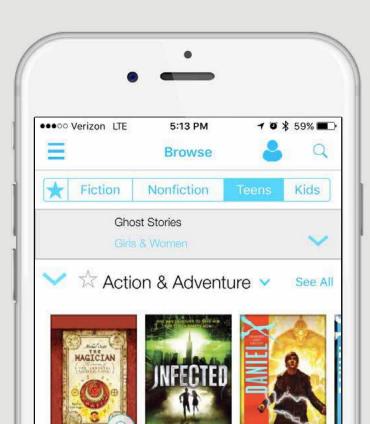

consortium titles

easily access consortium-wide titles

teens and kids

With Young Adult BISAC category integration, users can filter searches by specific categories within YA and see various BISAC categories within book descriptions.

bibliotheca is the only company that offers an integrated self-service and eContent platform, allowing us to provide libraries with a truly connected and seamless physical, digital

and self-service experience.

gain new digital users at the selfCheck™

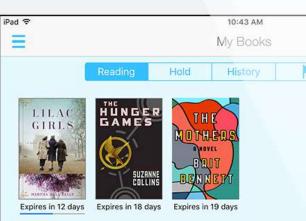

quickConnect™ and cloudLibrary™ work hand-in-hand to deliver your digital collection to users right at the selfCheck™. Suggested reads and similar titles are presented in a clear and unobtrusive way, allowing eBooks and eAudiobooks to be immediately added to the user's digital shelf. Initially designed for public libraries, cloudLibrary™ also appeals to academic libraries that want to offer a digital leisure collection to their students without having to visit another library.

attract new digital users from within your library

app download instructions provided on receipt

simple, one-click check-out of content

immediate access to titles within cloudLibrary™ app

December so quickly? Not matter—here we are, and to help you part ways with what remains of your materials budget, we've curated six promotions this month with some of our most notable partners: Penguin Random House, HarperCollins, HarperCollins Christian, Macmillan, Simon & Schuster, and Blackstone. Check the Fall/Winter eAudio Sales tab to begin shopping. More later!

In The Seventh Plague, #12 in his New York Times best-selling Sigma Force series, James Rollins plays with the idea of biblical plagues wreaking havoc in the 21st century. Mummification, anyone? A vampire warrior falls hard for the aristocratic woman he's hired to protect in J.R. Ward's Blood Vow. #2 in the Black Dagger Legacy series. Anna Todd's Nothing Less finds Landon-an adored male lead from the After series-moving to New York City for adventure.

eAudio Adult Nonfiction

Michael Lewis of The Blind Side fame returns with The Undoing Project, examining the relationship between two Israeli psychologists who developed a theory on the flawed human decision-making process. Sebastian Bach adds to the deluge of recent rock 'n roll memoirs with 18 and Life on Skid Row. Expect

"Our close relationships with publishers set us apart and help us deliver the best content for our libraries. Using sales data, we created the opening-day collection for cloudLibrary™ so customers launch with titles that perfectly match users' interests."

provide titles from regional publishers

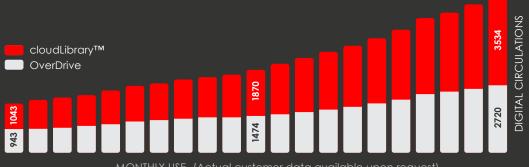

a natural experiment at Mobile Public Library

In a unique scenario, Mobile Public Library (MPL) in Alabama launched cloudLibrary[™] and OverDrive on the exact same day, with the exact same titles. They allowed their users to select the preferred platform and found that users preferred cloudLibrary[™]. As a result, MPL dropped OverDrive in 2016.
