

# bibliotheca Tattle-Tape™ Security Strips & Applicators

**A | bibliotheca Tattle-Tape™ Security Strips DCD-2** These precision balanced strips are designed for CDs and DVDs. The easy, one-step application process integrates two strips into a clear film overlay that prevents removal and protects the surface of the disc. Strips will not affect performance.

**B | bibliotheca Tattle-Tape™ Security Strips B2** Ultra-thin, double-sided strips are designed to be applied between pages of books and periodicals. The extra-long liner makes it easier to insert the strip deeply into the gutter, making it virtually undetectable.

**C | bibliotheca Tattle-Tape™ Security Strips B1** Single-sided strips are designed for hardcover books. Strips can be easily inserted into book spines with a bayonet either on a countertop or right in the stacks. Strips are completely concealed.

**D | bibliotheca Tattle-Tape™ Security Strip R2** Applied with the bibliotheca Tattle-Tape™ Application System, these strips are in roll format with no liners to remove. They're automatically dispensed and can be applied to print materials five times faster than traditional strips.

**E | bibliotheca Tattle-Tape™ Application System** With this device, you can apply Tattle-Tape™ Security Strips to print materials three to five times faster than applying the strips by hand. Use it in the stacks or behind the scenes. UL-certified.

**F | bibliotheca Tattle-Tape™ Security Strips DVM-1** These strips are designed for unboxed videocassettes. Strips are hidden by a cover-up label that can be printed with a title or other information. Cover up labels need to be ordered separately.

**G | bibliotheca Tattle-Tape™ Security Strips SB-3** These strips are designed for unboxed audiocassettes and small books. Strips are hidden by a cover-up label that can be printed with a title or other information. Cover up labels need to be ordered separately.

Although we make every effort to ensure information is correct at the time of release, it is possible that specifications and features may vary or change over time.
