

# bibliotheca Tattle-Tape™ gate clear

superior security, modern design

With a modern and attractive clear and mirrored panel design, the bibliotheca Tattle-Tape™ gate clear not only offers superior detection using the latest DSP technology, but perfectly integrates with any library environment. Designed for use with Tattle-Tape™ Security Strips, this system detects all EM strips in any orientation. Along with a selection of built-in LED alarm light colors to choose from, it features a modern finish and is completely safe for all magnetic media.

# benefits of the Tattle-Tape™ gate clear

## Reduce unwanted alarms

The Tattle-Tape™ gate clear can detect when an activated strip is leaving the library, significantly reducing false alarms at the gate when people enter. With multiple pedestals used to cover a larger entrance-way, the alarm lights on the gates also identify which aisle caused the alarm, helping staff locate items that triggered the alarm faster.

## Integrated with libraryConnect™

Staff can remotely access libraryConnect™ for in-depth statistics and configuration options. This allows staff to remotely upgrade firmware, run monthly reports and change the alarm colors and patterns.

## Genuine Tattle-Tape™ technology

With powerful algorithms, the genuine Tattle-Tape™ technology can distinguish between common metal items and any EM strip to yield the most accurate results. This means less false alarms and fewer inconveniences for both users and staff.

## Superior detection of items in any orientation

Using the latest in DSP technology, the Tattle-Tape™ gate clear can detect EM strips regardless of the orientation within the gates, offering the highest level of detection, even in the noisiest of environments.

## Integrated, visible people counter

The on-board bi-directional people counter accurately counts the number of people entering and leaving the library. This information is transferred to libraryConnect™ as well as the control box, which has a convenient display for quick access to live stats.

## Sleek, modern design

We designed our new Tattle-Tape™ gate clear to fit within new modern and updated library spaces. With the complimentary mirrored finish, your security gates easily match your library interior.

## Selectable alarm color and pattern

Both visual and audible security alarm settings are completely configurable by the library. With 8 LED color alarms and patterns to choose from, the Tattle-Tape™ gate clear ensures both users and staff are alerted of items that have not been properly checked out.

## Customizable ambient lighting

The Tattle-Tape™ gate clear boasts an attractive and modern ambient lighting design that illuminates the entire panel. With a range of color options to choose from, libraries can customize the standard ambient color as well as the alarm color pattern. The well-lit Tattle-Tape™ gate clear adds an attractive and colorful impact at the library entrance. With endless ambient and alarm color combinations, choose the perfect lighting combination for your library atmosphere.

## Flexible configuration and installation

Simple set-up and maintenance allows our trained technicians to cause little disruption to your library and staff can quickly troubleshoot concerns with our dedicated phone support teams.

## Specifications : bibliotheca Tattle-Tape™ gate clear

|                                |  |
|--------------------------------|--|
| <b>Dimensions (w x d x h):</b> | Millimetres: 70 (Max at base) x 610 x 1781 (± 3)<br>Inches: 2.75 (Max at base) x 24 x 72.125 (± 0.1)   |
| <b>Weight (per gate):</b>      | Kilograms: 43<br>Pounds: 95  |
| <b>Material:</b>               | Transparent panel with mirrored inserts, black ABS with light texture base   |
| <b>Power:</b>                  | Supply voltage: 100/120, 220/240 VAC, 50 / 60 Hz<br>Power consumption: 3.0A / 1.5A   |
| <b>Data:</b>                   | Ethernet (TCP/IP)  |
| <b>Performance:</b>            | Optimized for detection of Tattle-Tape™ markers<br>Optimal coverage is achieved within 39.4 inches / 1,000 mm of separation  |
| <b>Alarm:</b>                  | Multi-color*, customer selectable LED lights<br>Variable alarm pattern and adjustable volume<br>Highly visible integrated digital display to monitor alarm counts, ingoing and outgoing patron traffic, and diagnostics<br><small>*Available colors: red, cyan, magenta, blue, green, yellow, white, &amp; rotate mode</small> |
| <b>Standards compliance:</b>   | CE, RCM, ETSI, FCC, IC, ADA, DDA, ETL and CSA  |
| <b>Temperature range:</b>      | Operating: 10 °C to +40 °C/Storage: -40 °C to +55 °C   |
| <b>Configurations:</b>         | Standard configuration can support up to 6 panels to provide total coverage of 6.0m  |
| <b>Installation:</b>           | Multiple installation options including direct attachment to the floor with either in floor wiring or a wire way and a baseplate option. The on-board tuning allows the gates to be placed within 45.7cm (18") from any metal objects, giving more freedom than ever to install within confined areas.                         |
| <b>Software:</b>               | Software is not required for the Tattle-Tape™ gate clear to operate, however, when used in conjunction with our staffConnect™ gate software, enhanced reporting is available   |
| <b>Additional features:</b>    | Integrated bi-directional people counter.<br>Ability to trigger external devices such as CCTV, voice alarms and entry gates.   |
| <b>Options:</b>                | Ability to customize ambient LED lights with 10 color options and various patterns   |
