

## TECHNICAL SHEET

# ECO-DISPLAY CLASSIC

The Eco-DISPLAY Classic is an eye-catching and powerful display that promotes cycling as an important part of urban life. Connected to a bicycle or bicycle & pedestrian counter installed in an adjacent bike path, the Eco-DISPLAY Classic displays real-time passages that are registered by the counter, with cumulative daily, monthly or even yearly counts. These counts are then sent to our online software solution Eco-Visio, where they can be analyzed and shared with the public. The Eco-DISPLAY Classic's large display area can be fully customized on both sides with an optional backlight for nighttime visibility.

+ Customizable display

+ Display visible at night

## Physical Characteristics

<b>Dimensions</b>	239 x 47 x 16cm (94 x 18.5 x 6.25 inches)
<b>Weight</b>	≈ 100kg (220 lbs)
<b>Wind Resistance</b>	Zone 5 according to NV65 standard
